## The Juries Prudential and Medical Traces of Breastfeeding

*Mohammad I. Abu Jraiban and Mhanna A. Khattab\**

### ABSTRACT

This research dealt with the important jurisprudential and medical traces of breastfeeding and explained its doctrinal laws and rules as marriage proscription other occurrence of the considerable condition. The research also discussed contemporary issues related to breastfeeding as leben and milk banks, and explained its doctrinal laws related to marriage.

Among the medical traces which the research discussed is the refractoriness or invincibility traces of mothers' milk on the infant in comparison to other kinds of formula milk, depending on the physiological analysis of breastfeeding and the method of creating the milk, through the micro dissection of the breast.

**Keywords:** Breast Feeding, Yogurt Banks, Colostrum.
